Dear Friend: As we enjoy the 4th of July with its spectacular fireworks, BBQs, parades and summer fun, remember that we are commemorating the foundation of this nation on the idea that all are created equal and that no one is above the law.

Our democracy is on the line in November. In the last few weeks, the Supreme Court has narrowed your rights and your protections. We need elected officials who will defend our freedoms and restore our rights. Your vote will be more important than ever.

YOU can make a difference now.

Here are some things you can do:

- *Get to know candidates and their values.*
- *Get the facts. Meet candidates. Get connected with their stances.*
- *Ask the candidates tough questions.*

Then work for the candidates you support.

Linda Robertson is endorsed by organizations that are fighting for our environment, public schools, safety, health and mental care.
